FRUIT EXTRACT BENEFITS

BLUEBERRY

These blue super-fruits have a natural source of vitamin E, anti-oxidant properties and omega-3 fatty acids. These benefits provide nourishment and moisture to your skin, while the strong astringent keeps your skin toned and in great shape. Blueberries are also excellent for acne-prone skin when you suffer from dry skin. It assists in diminishing the appearance of wrinkles, and helps the skin look firm and plump.

DRY TO NORMAL

Skin Types

MANGO

This all-star mango-seed fruit extract is known for its intense moisturizing properties and astringent properties. The vitamin C in the mango helps keep your skin firmer and tighter, while the vitamin A assists in reducing the appearance of lines and wrinkles, therefore leaving your skin looking revitalized and radiant.

CANTALOUPE

This nutritious melon extract contains Vitamins K and E which play a major role in keeping your skin healthy and radiant. The high-water content hydrates your skin from within. Cantaloupe melon is also a reliable source of B vitamins, choline, and betaine which helps keep your skin replenished, moisturized and rejuvenated. Regularly applying our cantaloupe products will leave your skin feeling soft and hydrated. Skin regeneration is also encouraged due to the high content of Vitamin A and C.

LEMON

Lemons are popular fruits that have been proven to continuously take care of oily and acne prone skin. It has antiseptic, antibacterial, anti-inflammatory, antimicrobial and anti-fungal properties. Together with its abundant vitamin C and citric acid content, this will fight off acne causing germs and boost collagen production, thereby reducing scarring. It's intense astringent properties, reduce excess sebum on the skin by shrinking large pores. An even tone complexion is also achievable because the minerals will produce new cells and balanced pH skin levels, therefore leaving your skin with an overall natural light skin complexion.

OILY TO COMBINATION

Skin Types

GUAVA

A powerful astringent for toning up your oily prone skin. It is supremely rich in vitamin C, and also contains carotene & antioxidants that are beneficial for your skins natural health. Guavas also improve your skins complexion by enabling it to retrieve its radiance with a fresh looking and invigorated feel. Lycopene is an antioxidant in guava's that protects your skin from being damaged by UV rays.

STRAWBERRY

This red sultry fruit has excellent skin smoothing properties. The acidic nature of strawberries helps remove the excess accumulation of sebum/oil in the skin, together with the abundance in vitamin C, you can be sure that your oily skin will be under control. Strawberries also contain ellagic acid which helps prevent the destruction of collagen, therefore alleviating wrinkles from forming on the skin.

FOR ALL *Skin Types*

KIWIFRUIT

This beautiful green potent fruit is wonderful for all skin types as it contains concentrated anti-irritant skin properties thanks to the high amounts of potassium and various enzymes including papain and bromelain. Like most of the other fruits, kiwi also contains vitamin C, which helps fight dark spots that are mostly caused by sun damage and aging, therefore leaving skin looking more evenly toned. The antioxidants also helps fight antiaging by supporting collagen production in the skin.

GREEN APPLE

Apple fruit extracts have multiple skin functions such as natural UV rays protection, treating acne prone skin, evening out skin blemishes and dark spots, and treating puffy eyes. Antiageing, skin hydration, excellent skin toner and even-ing out your complexion are just more of the great benefits that apples provide for all skin types. These are all possible due to the abundant amount of minerals and vitamins present in this nutritious green skin supplement.

WATERMELON

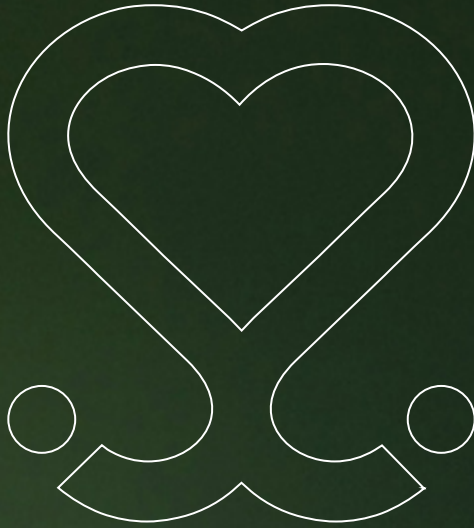

Originating from southern Africa, watermelon extract gives the look of a younger, regenerated skin by reducing the appearance of skin redness after UV ray exposure therefore improving the appearance of aged and stressed skin. This is all possible due to the strong presence of vitamin A, B6 and C. All skin types will benefit from pH-balanced skin while having skin that will be hydrated and left looking rejuvenated and radiant.
